Bonny Foundation for Freedom & sitem School

A partnership committed to improve and facilitate the translational process through education
Connecting the Best Minds in Science, Business and Entrepreneurship through education

Scholarship for the Master of Advanced Studies (MAS) in “Translational Medicine and Biomedical Entrepreneurship”
About the MAS Translational Medicine and Biomedical Entrepreneurship

- The study program is designed to train professionals in scientific and medical knowledge, and simultaneously in entrepreneurship skills to enable them to successfully coordinate the development and commercialization of biomedical products.

- It consists of six modules covering different aspects relevant for the development and commercialization of medicinal products and medical devices.

- It addresses professionals from industry, hospitals and academia that are active in the medical sector and interested in translational medicine and biomedical entrepreneurship.

- Lecturers are professionals from research and development oriented private companies, scientists from universities or universities of applied sciences, collaborators from regulatory agencies, financial experts and clinicians.

- All classes are in English.

- **Start & Duration: September 2020 for a duration of a minimum of 4 semesters**

- **Location: University of Bern, sitem-insel building, Freiburgstrasse 3**
About the Scholarship

The scholarship is awarded based on the applicant’s qualification and commitment to improve the process of translational medicine and/or develop new and innovative biomedical products or processes.

The scholarship enables the holder to perform the MAS studies and deepen his knowledge in Translational Medicine and Biomedical Entrepreneurship.

Applicants should have a bachelor’s or higher degree in life sciences, pharmacy, medicine, engineering science, natural sciences or equivalent.

Applications should be submitted to school@sitem.unibe.ch. The application documents should include the sitem school application form, a CV, description of a project that the applicant plans to develop during the MAS and a letter of motivation.

About sitem School

The sitem School’s mission is to promote researchers and train specialists in the fields of translational medicine and biomedical entrepreneurship. This successful academia-industry partnership intends to facilitate the development of talented individuals in translational medicine.

About sitem-insel

sitem-insel – the Swiss Institute for Translational and Entrepreneurial Medicine in Berne – was created to establish, operate and develop a National Center of Excellence that assists in the transition from research findings or prototypes to marketable products. It is organized as a non-profit public-private partnership.

The strategy is based on four pillars: School, Enabling Facility, Promoting Services, and Network and Communication.
About Bonny Foundation for Freedom

Founded by former member of the parliament, Jean-Pierre Bonny, the foundation campaigns for liberal values and entrepreneurship. Motivated to preserve the individual, sovereign and economic liberties, Bonny Foundation for Freedom supports various educational institutes and projects. Therefore, the Foundation generously provides scholarships for modern entrepreneurs. Paired with its focus on personal responsibility of individuals and companies, the foundation helps shaping a new generation of businesses in Life Science.
